## Subject Index

### a

abdominal trauma (*tip*), April, p. 260  
abortion, spontaneous, mycoplasma, ureaplasma and (*tip*), April, p. 256  
accidents  
— child abuse, rise with unemployment (*news*), April, p. 269  
— submersion, in children with epilepsy (*tip*), April, p. 235  
adenocarcinoma, basal cell carcinoma and, of the skin (*info pl*), May, p. 43  
adenomas, villous, rectal, low excision of (*tip*), February, p. 312  
adolescent(s)  
— breast self-examination in, \*April, p. 189  
— bulimia in (*tip*), February, p. 311  
— encopresis in children and, \*May, p. 107  
— 'normal' (*tip*), April, p. 262  
adolescent girls, dysuria in (*tip*), January, p. 293  
adolescent males, treatment of urethritis in (*tip*), June, p. 178  
adrenal carcinoma, treatment of (*tip*), January, p. 282  
adrenal tuberculosis, CT findings in (*tip*), May, p. 200

### AIDS

— colonic biopsies have a high diagnostic yield in (*med*), May, p. 191  
— herpes virus may have role in (*news*), April, p. 268  
air pollution and family health, \*April, p. 165  
air travel for the chronically ill and the elderly, \*March, p. 235  
alcohol ingestion, atrial fibrillation after (*info pl*), May, p. 45  
alcohol-related deaths, young drivers account for high number of (*news*), February, p. 362  
alcohol withdrawal syndrome, \*May, p. 114  
alcoholism  
— \*February, p. 274  
— study seeks answer to growing problem (*news*), June, p. 186  
alopecia areata, topical minoxidil for (*tip*), April, p. 243  
altitudes, high, propensity for neonatal hyperbilirubinemia found at (*med*), March, p. 267  
Alzheimer's disease, findings are reported on (*news*), June, p. 190  
aminoglutethimide vs. tamoxifen for breast cancer (*tip*), February, p. 304  
aminoglycoside, magnesium-interaction (*tip*), March, p. 282  
aminoglycoside kinetics, obesity alters (*med*), April, p. 231  
aminoglycoside nephrotoxicity, diabetics are at risk of (*med*), March, p. 267  
amniotic band syndrome, \*February, p. 201  
amoxapine overdose (*tip*), March, p. 284  
amoxicillin, high-dose, for bronchial infection (*tip*), May, p. 216  
anaphylaxis, cardiac disorders in (*tip*), January, p. 262  
anergy and delayed hypersensitivity skin testing, \*May, p. 143  
anesthesia, obstetric, \*June, p. 146

### aneurysm(s)

— aortic: a multifocal disease (*tip*), May, p. 213  
— intracranial, pitfalls in diagnosing, \*January, p. 139  
aneurysmectomy in the octogenarian (*tip*), January, p. 257  
angina  
— esophageal (*tip*), February, p. 344  
— variant, sudden death in patients with (*tip*), January, p. 274  
— vasospastic, thromboxane A<sub>2</sub> in (*tip*), January, p. 282  
anisocoria induced by scopolamine patches (*tip*), January, p. 274  
anorexia, oral signs of frequent vomiting in, \*April, p. 199  
antibiotics, prophylactic, for simple lacerations (*tip*), June, p. 183  
anticoagulation, effective, prothrombin time of 1.25 is (*med*), April, p. 230  
antidepressant plasma levels and clinical response (*tip*), March, p. 304  
antihypertensive drugs, hemodynamic effects of, \*June, p. 137  
anti-inflammatory drugs, nonsteroidal, may cause proteinuria (*med*), February, p. 289  
antiviral agents, \*January, p. 237  
anxiety states and benzodiazepines, \*May, p. 151  
aortic aneurysm: a multifocal disease (*tip*), May, p. 213  
aortic cross-clamping, nitroglycerin during (*tip*), February, p. 331  
aortic dissection, \*May, p. 170  
aortic graft infections, osteoarthropathy and (*tip*), January, p. 299  
aorto-iliac operations and sexual dysfunction (*tip*), January, p. 285  
apnea, neonatal, and SIDS (*tip*), February, p. 291  
ARDS, infection appears to be a substantial problem in (*med*), February, p. 288

January 1983 through June 1983

### aneurysm(s)

— aortic: a multifocal disease (*tip*), May, p. 213  
— intracranial, pitfalls in diagnosing, \*January, p. 139  
aneurysmectomy in the octogenarian (*tip*), January, p. 257  
angina  
— esophageal (*tip*), February, p. 344  
— variant, sudden death in patients with (*tip*), January, p. 274  
— vasospastic, thromboxane A<sub>2</sub> in (*tip*), January, p. 282  
anisocoria induced by scopolamine patches (*tip*), January, p. 274  
anorexia, oral signs of frequent vomiting in, \*April, p. 199  
antibiotics, prophylactic, for simple lacerations (*tip*), June, p. 183  
anticoagulation, effective, prothrombin time of 1.25 is (*med*), April, p. 230  
antidepressant plasma levels and clinical response (*tip*), March, p. 304  
antihypertensive drugs, hemodynamic effects of, \*June, p. 137  
anti-inflammatory drugs, nonsteroidal, may cause proteinuria (*med*), February, p. 289  
antiviral agents, \*January, p. 237  
anxiety states and benzodiazepines, \*May, p. 151  
aortic aneurysm: a multifocal disease (*tip*), May, p. 213  
aortic cross-clamping, nitroglycerin during (*tip*), February, p. 331  
aortic dissection, \*May, p. 170  
aortic graft infections, osteoarthropathy and (*tip*), January, p. 299  
aorto-iliac operations and sexual dysfunction (*tip*), January, p. 285  
apnea, neonatal, and SIDS (*tip*), February, p. 291  
ARDS, infection appears to be a substantial problem in (*med*), February, p. 288

arteriosus, patent ductus (*tip*), February, p. 328

artery, tibial, injuries (*tip*), January, p. 260

arthritis

- juvenile, treatment of, \*March, p. 133
- rheumatoid, purpuric eruption in (*tip*), February, p. 337
- septic, Crohn's disease and (*tip*), March, p. 287

arthropathy, seronegative, synovial membranes in (*tip*), April, p. 251

asbestos exposure

- in oral and gastrointestinal lymphomas (*tip*), March, p. 298
- and upper lobe involvement (*tip*), April, p. 242

ascites, \*March, p. 248

aspergillosis (*tip*), May, p. 199

aspiration, foreign body (*tip*), February, p. 302

aspirin and pregnancy (*tip*), January, p. 272

aspirin poisoning, chronic, in children (*tip*), February, p. 303

aspirin use and blood loss in emergency surgery (*tip*), June, p. 174

asthma

- beta blockers, and coronary artery disease (*tip*), January, p. 275
- oral vs. inhalation therapy of (*tip*), March, p. 312

atherosclerosis

- in children, preventing (*tip*), May, p. 203
- vasectomy and (*ed*), January, p. 125

athletes, heel pain in (*info pl*), March, p. 58

atrial fibrillation after alcohol ingestion (*info pl*), May, p. 45

atrioventricular junctional rhythm with verapamil (*tip*), April, p. 239

attention deficit disorder, hyperactivity and, \*June, p. 119

## b

baclofen withdrawal can lead to severe psychiatric illness (*med*), February, p. 287

bacteruria, significant, what is? (*ed*), January, p. 122

barn itch, \*January, p. 149

basal cell carcinoma and adenocarcinoma of the skin (*info pl*), May, p. 43

behavior problems, family stress and reports of (*tip*), March, p. 298

behavioral abnormalities, corticosteroids and (*tip*), March, p. 274

Bendectin® and pyloric stenosis (*tip*), March, p. 319

benzodiazepines, anxiety states and, \*May, p. 151

beta blockers, asthma and coronary artery disease (*tip*), January, p. 275

blind infants and children: implications for physicians (*tip*), May, p. 208

blood cells, flexibility of, is issue in hemorheology (*news*), January, p. 303

blood pressure

- cigarettes, coffee and (*tip*), February, p. 337
- circadian patterns in (*tip*), January, p. 284

bone disorders, nonmalignant, radionuclide evaluation of, \*February, p. 175

borderline personality, \*January, p. 195

boxing, chronic brain damage in (*tip*), June, p. 172

BPH, research on, shows new promise (*news*), April, p. 274

brain damage, chronic, in boxing (*tip*), June, p. 172

brain tumors in elderly patients, \*April, p. 137

breast cancer(s)

- aminoglutethimide vs. tamoxifen for (*tip*), February, p. 304
- chemotherapy and endocrine therapy in (*tip*), May, p. 199
- metastatic, treatment of (*tip*), April, p. 238
- radiation-treated, bronchogenic carcinoma and (*tip*), June, p. 180
- thermography technique may identify high risk of (*news*), March, p. 328

breast disease in an outpatient clinic (*tip*), February, p. 312

breast-fed infants, diarrhea in (*tip*), February, p. 301

breast feeding and herpes (*tip*), February, p. 332

breast reconstruction, \*February, p. 265

breast self-examination in adolescents, \*April, p. 189

bronchial hyperreactivity, recurrent pneumonia and (*tip*), February, p. 347

bronchial infection, high-dose amoxicillin for (*tip*), May, p. 216

bronchial obstruction, \*April, p. 147

bronchial washings, culture of, in tuberculosis (*tip*), April, p. 236

bronchogenic carcinoma(s)

- multiple primary (*tip*), April, p. 237
- multiple primary (*tip*), May, p. 206
- and pulmonary infarction (*tip*), March, p. 317
- and radiation-treated breast cancer (*tip*), June, p. 180
- zinc levels in (*tip*), February, p. 318

bronchoscopy, fiberoptic (*tip*), March, p. 297

brown recluse spider antivenom is being developed at Vanderbilt (*news*), March, p. 334

- bulimia in adolescents (*tip*), February, p. 311
- burn patients
  - blended diet for (*tip*), April, p. 236
  - immunosuppression in (*tip*), January, p. 281

## C

- caffeine poisoning (*tip*), January, p. 290
- calcium channel blockers
  - February, p. 283
  - therapeutic uses of, \*April, p. 210
- campylobacter enteritis, early diagnosis of (*tip*), January, p. 292
- cancer(s)
  - breast, aminoglutethimide vs. tamoxifen for (*tip*), February, p. 304
  - breast, chemotherapy and endocrine therapy in (*tip*), May, p. 199
  - breast, metastatic, treatment of (*tip*), April, p. 238
  - breast, radiation-treated, bronchogenic carcinoma and (*tip*), June, p. 180
  - breast, thermography technique may identify high risk of (*news*), March, p. 328
  - colorectal, detecting (*ed*), April, p. 122
  - colorectal, occult blood screening for (*tip*), May, p. 197
  - in cystic lesions of the thyroid (*tip*), March, p. 276
  - gallbladder, risk of, gallstone size is linked to (*med*), February, p. 288
  - head and neck, chemotherapy in (*tip*), January, p. 289
  - head and neck, chemotherapy of (*tip*), March, p. 275
  - head and neck, CT is useful in evaluating extent of (*med*), May, p. 192

- intraoral, reductive chemotherapy for (*tip*), April, p. 247
- lung, CEA levels in (*tip*), February, p. 352
- lung, occult, chance of survival seems good with (*med*), June, p. 165
- lung, occult, detection of (*tip*), March, p. 290
- nasal (*tip*), June, p. 176
- pancreatic, fine-needle aspiration for (*tip*), March, p. 310
- cancer chemotherapy using a clonogenic cell assay, \*April, p. 223
- cancer pain, intractable, epidural injection for (*tip*), January, p. 258
- cancer patients, oral complications in, \*February, p. 161
- candidiasis
  - postsurgical (*tip*), March, p. 273
  - systemic (*tip*), May, p. 219
- capsulitis, adhesive, innovative therapy alleviates (*med*), February, p. 287
- captopril in pulmonary hypertension (*tip*), April, p. 242
- carbamazepine, isoniazid-, toxicity (*tip*), February, p. 305
- carbon monoxide poisoning, symptoms of, often mimic flu (*news*), January, p. 305
- carcinoma(s)
  - adrenal, treatment of (*tip*), January, p. 282
  - bronchogenic, multiple primary (*tip*), April, p. 237
  - bronchogenic, multiple primary (*tip*), May, p. 206
  - bronchogenic, and pulmonary infarction (*tip*), March, p. 317
  - bronchogenic, and radiation-treated breast cancer (*tip*), June, p. 180
  - bronchogenic, zinc levels in (*tip*), February, p. 318
  - colorectal, metastatic (*tip*), March, p. 300
  - medullary, of the thyroid (*tip*), March, p. 292
- renal, retroperitoneal hemorrhage from (*tip*), January, p. 272
- snuff dipper's, patient with, is profiled (*med*), May, p. 192
- cardiac catheterization after myocardial infarction (*tip*), March, p. 318
- cardiac disorders in anaphylaxis (*tip*), January, p. 262
- cardiac dysrhythmia induced by swallowing (*tip*), February, p. 338
- cardiac tumors, ECG changes with (*tip*), January, p. 278
- cardiomyopathies (*tip*), January, p. 261
- carotid artery spasm (*tip*), March, p. 291
- carotid bruit and surgical risk (*tip*), March, p. 284
- carotid endarterectomy and prevention of recurrent stroke (*tip*), March, p. 320
- catheter-associated mortality (*tip*), January, p. 286
- catheter drainage, percutaneous, of intra-abdominal abscesses (*tip*), April, p. 254
- CEA levels in lung cancer (*tip*), February, p. 352
- cefamandole, hypoprothrombinemia associated with (*tip*), May, p. 224
- cervical dislocation seen in Down's syndrome (*news*), May, p. 229
- cesarean section, endomyometritis after (*tip*), February, p. 344
- chemonucleolysis of herniated lumbar discs, \*May, p. 97
- chemotherapy
  - cancer, using a clonogenic cell assay, \*April, p. 223
  - and endocrine therapy in breast cancer (*tip*), May, p. 199
  - in head and neck cancer (*tip*), January, p. 289
  - of head and neck cancer (*tip*), March, p. 275
  - reductive, for intraoral cancer (*tip*), April, p. 247

chemotherapy-induced nausea and emesis, management of, \*January, p. 226  
child abuse, accidents rise with unemployment (*news*), April, p. 269  
chlorpromazine-induced lupus-like illness, \*April, p. 151  
cholecystitis  
—acute and chronic, imaging techniques in (*tip*), March, p. 297  
—emphysematous, \*June, p. 131  
cigarettes  
—coffee and blood pressure (*tip*), February, p. 337  
—low-nicotine, and infarction risk (*tip*), June, p. 174  
cimetidine  
—and fetal sexual development (*tip*), January, p. 292  
—in renal transplant recipients (*tip*), March, p. 276  
CIN, papillomavirus is implicated as a cause of (*med*), May, p. 191  
circadian patterns in blood pressure (*tip*), January, p. 284  
circumcision, parent education and (*tip*), March, p. 305  
clams, raw (*tip*), January, p. 266  
cleft lip and palate, frequency of (*tip*), March, p. 293  
clonogenic cell assay, cancer chemotherapy using, \*April, p. 223  
coffee, cigarettes, and blood pressure (*tip*), February, p. 337  
colonic biopsies have a high diagnostic yield in AIDS (*med*), May, p. 191  
colorectal cancer  
—detecting (*ed*), April, p. 122  
—occult blood screening for (*tip*), May, p. 197  
colorectal carcinoma, metastatic (*tip*), March, p. 300  
communication, consultation and (*ed*), May, p. 90  
computed tomography and anomalies of the great veins, \*April, p. 157

congenital dislocation of the hip (*tip*), February, p. 339  
conjunctival vascular changes may herald hypertension (*med*), January, p. 247  
constipation in the elderly, \*January, p. 179  
consultation and communication (*ed*), May, p. 90  
convulsions in childhood shigella infections (*tip*), February, p. 328  
COPD, stable, malnutrition is common in patients with (*med*), March, p. 268  
coronary arteries, systolic narrowing of (*tip*), March, p. 305  
coronary artery bypass after recent myocardial infarction (*tip*), March, p. 287  
coronary artery disease  
—beta blockers, asthma and (*tip*), January, p. 275  
—sex differences in (*tip*), February, p. 346  
coronary artery responses to thrombin (*tip*), February, p. 338  
coronary bypass, ejection fraction may predict outcome of (*med*), June, p. 165  
coronary disease risk, LDL production in obesity may increase (*med*), January, p. 247  
corticosteroids and behavioral abnormalities (*tip*), March, p. 247  
creatinine parameters, meat intake may distort (*med*), April, p. 230  
Crohn's disease and septic arthritis (*tip*), March, p. 287  
cryosurgery to occlude the vas deferens (*tip*), February, p. 302  
cystic fibrosis  
—hemoptysis in (*tip*), April, p. 261  
—overdiagnosis of (*tip*), March, p. 308  
cytomegalovirus infection, congenital (*tip*), March, p. 289  
cytoreductive surgery in testis tumors (*tip*), February, p. 329

## d

dementia, cause of, two clinical signs may point to tumor as (*med*), February, p. 288  
Denver peritoneovenous shunt (*tip*), April, p. 257  
depression  
—in the mentally retarded (*tip*), April, p. 245  
—stress, social support and (*ed*), June, p. 102  
diabetes Type I, pre-disease condition cited in (*news*), May, p. 234  
diabetics are at risk of aminoglycoside nephrotoxicity (*med*), March, p. 267  
diarrhea  
—in breast-fed infants (*tip*), February, p. 301  
—oral rehydration for (*tip*), February, p. 332  
—traveler's, treatment of (*tip*), February, p. 343  
—traveler's: update 1983, \*April, p. 193  
diet(s)  
—blended, for burn patients (*tip*), April, p. 236  
—vegetarian (*tip*), February, p. 317  
dietary intake may play a role in childhood fractures (*med*), April, p. 229  
diphtheria (*tip*), February, p. 345  
diuretics  
—and potassium supplements (*info pl*), January, p. 45  
—and potassium supplements (*info pl*), March, p. 55  
diverticula, jejunal (*tip*), February, p. 330  
Down's syndrome, cervical dislocation seen in (*news*), May, p. 229  
drug interactions, \*February, p. 229  
dysuria in adolescent girls (*tip*), January, p. 293

**e**

ECG changes with cardiac tumors (*tip*), January, p. 278

ectopic pregnancy, CDC data on death from, are reported (*med*), February, p. 289

ectopic pregnancy rate doubles over past decade (*news*), June, p. 194

ejection fraction may predict outcome of coronary bypass (*med*), June, p. 165

elderly

- air travel for the chronically ill and, \*March, p. 235
- constipation in, \*January, p. 179
- psychotropic drugs in (*tip*), April, p. 244
- signs of heart attack in, are characterized (*med*), March, p. 267
- sleep disorders in, \*March, p. 143

elderly inpatients, falls in, may relate to poor postural reflexes (*med*), June, p. 169

elderly patients, brain tumors in, \*April, p. 137

electricity could be a trigger for regenerative healing (*news*), February, p. 353

embolism

- pulmonary, antemortem diagnosis of (*tip*), March, p. 311
- pulmonary, and chronic renal failure (*tip*), January, p. 253
- pulmonary, syncope during (*tip*), March, p. 290

emesis, nausea and, chemotherapy-induced, management of, \*January, p. 226

emphysematous cholecystitis, \*June, p. 131

encopresis in children and adolescents, \*May, p. 107

endobronchial metastatic disease (*tip*), March, p. 312

**endocarditis**

- nonbacterial thrombotic, \*April, p. 177
- pulmonary valve (*tip*), April, p. 237

endocarditis prophylaxis for patients with periodontal disease, \*January, p. 129

endocarditis risk, mitral valve prolapse and (*tip*), January, p. 276

endomyometritis after cesarean section (*tip*), February, p. 344

enuresis, nocturnal, treatment of (*tip*), January, p. 251

epidural injection for intractable cancer pain (*tip*), January, p. 258

epidural lipomatosis from steroid therapy, case of, is reported (*med*), June, p. 165

epilepsy, children with, submersion accidents in (*tip*), April, p. 235

Epstein-Barr virus, lymphomatoid granulomatosis and (*tip*), January, p. 271

erysipelas, \*May, p. 123

*Escherichia coli* pneumonia (*tip*), February, p. 345

esophageal angina (*tip*), February, p. 344

esophageal perforation in the newborn (*tip*), February, p. 337

estrogen preparations, potency of (*tip*), March, p. 302

exercises, extension, help curb osteoporotic vertebral changes (*med*), February, p. 287

eye drops, side effects of (*tip*), May, p. 214

**f**

families of handicapped children (*tip*), February, p. 330

family, unresolved grief in, \*January, p. 207

family health, air pollution and, \*April, p. 165

**family stress**

- and childhood morbidity (*tip*), February, p. 305
- and reports of behavior problems (*tip*), March, p. 298

femoral neuropathy may result from truss usage (*med*), January, p. 248

fetal monitoring interpretation, variability in (*tip*), February, p. 292

fetal sexual development, cimetidine and (*tip*), January, p. 292

**fever**

- unexplained, infant with, \*April, p. 129
- unexplained, with nasotracheal intubation (*tip*), January, p. 293

fiberoptic bronchoscopy (*tip*), March, p. 297

fine-needle aspiration for pancreatic cancer (*tip*), March, p. 310

fires, house, fatal (*tip*), June, p. 180

flu, symptoms of carbon monoxide poisoning often mimic (*news*), January, p. 305

flu prevention, research advances aid in (*news*), January, p. 304

flunarizine, prophylaxis of migraine with (*tip*), April, p. 243

foreign body aspiration (*tip*), February, p. 302

**fracture(s)**

- childhood, dietary intake may play a role in (*med*), April, p. 229
- spontaneous, of the sacrum (*tip*), January, p. 252

**g**

G6PD deficiency, Rocky Mountain spotted fever is fulminant in (*med*), April, p. 229

gallbladder cancer, gallstone size is linked to risk of (*med*), February, p. 288

gas in the hepatic venous system (*tip*), February, p. 243

gasoline sniffing (*tip*), May, p. 204

gasping syndrome, neonatal (*tip*), February, p. 349  
glass, roentgenographic detectability of (*tip*), February, p. 303

## **i**

illness, serious, in children, recognizing (*tip*), February, p. 296  
imipramine treatment of phobias (*tip*), May, p. 219  
immunization update, \*February, p. 249

immunocompromised patients, lung biopsy is safe in (*med*), March, p. 268

immunodeficiency, acquired, in Rhesus monkeys (*tip*), May, p. 217

immunosuppression

- in burn patients (*tip*), January, p. 281
- chronic myocarditis responds to (*med*), January, p. 247

incest, children of (*tip*), February, p. 348

infarction risk, low-nicotine cigarettes and (*tip*), June, p. 174

infertility, laser laparoscopy offers new hope for (*news*), April, p. 267

influenza, smoking and (*tip*), January, p. 285

influenza vaccination, 1982-83 (*tip*), January, p. 288

insecticides, cholinesterase-inhibiting, poisoning by, \*June, p. 159

insulin resistance in NIDDM (*tip*), April, p. 262

insulin treatment and linear growth (*tip*), January, p. 290

interferon shows modest results in NCI testing (*news*), May, p. 233

intra-abdominal abscesses, percutaneous catheter drainage of (*tip*), April, p. 254

intracranial aneurysms, pitfalls in diagnosing, \*January, p. 139

intracranial calcification, benign, \*February, p. 151

intraoral cancer, reductive chemotherapy for (*tip*), April, p. 247

iron deficiency is accompanied by diminished immune responses (*med*), February, p. 289

irritable bowel syndrome (*tip*), April, p. 244

isoniazid-carbamazepine toxicity (*tip*), February, p. 305

ITP, role of splenectomy in (*tip*), February, p. 291

## j

Jarvik-7, decades of research culminate in (*news*), March, p. 323

jejunal diverticula (*tip*), February, p. 330

joints, osteoarthritic, inflammation of (*info pl*), March, p. 55

juvenile arthritis, treatment of, \*March, p. 133

## k

karyotype analysis, equivocal, and prenatal counseling, \*March, p. 165

keratolysis, pitted: a common foot problem, \*April, p. 183

ketoconazole in mycotic infections (*tip*), April, p. 246

## l

labor inducibility (*tip*), February, p. 339

lacerations, simple, prophylactic antibiotics for (*tip*), June, p. 183

laparoscopy

- conventional vs. open, \*February, p. 147
- laser, offers new hope for infertility (*news*), April, p. 267

LDL production in obesity may increase coronary disease risk (*med*), January, p. 247

leg ulcers

- chronic, bed rest for (*tip*), January, p. 276
- chronic venous, sympathectomy for (*tip*), March, p. 300
- management of, \*February, p. 219

Legionella, aerated faucets appear to be a reservoir for (*med*), March, p. 268

Legionnaires' disease, incidence of (*tip*), January, p. 276

## leukemia

- chronic myelogenous, hemopericardium in (*tip*), April, p. 260
- chronic myelogenous, nephrotic syndrome with (*tip*), April, p. 247
- treated, growth of children with (*tip*), May, p. 198

leukocyte counts, differential (*tip*), April, p. 243

lightning, children struck by (*tip*), March, p. 289

Limulus lysate assay for gonorrhea, \*March, p. 227

lithium induces three patterns of thyroid disease (*med*), April, p. 231

liver disease, metastatic (*tip*), January, p. 278

lumbar discs, herniated, chemonucleolysis of, \*May, p. 97

lumbar puncture in infants, \*January, p. 157

lung, heartworm in, may present as coin lesion (*med*), May, p. 191

## lung biopsy

- fluoroscopic, CT scan to aid (*tip*), May, p. 218
- is safe in immunocompromised patients (*med*), March, p. 268

## lung cancer

- CEA levels in (*tip*), February, p. 352
- occult, chance of survival seems good with (*med*), June, p. 165
- occult, detection of (*tip*), March, p. 290

lupus, maternal, and congenital heart block (*tip*), February, p. 301

lupus-like illness, chlorpromazine-induced, \*April, p. 151

lymphadenopathy, acute tuberculous (*tip*), May, p. 205

lymphocyte function after surgery (*tip*), January, p. 252

## lymphoma(s)

- Hodgkin's, childhood (*tip*), March, p. 309

— oral and gastrointestinal, asbestos exposure in (*tip*), March, p. 298

lymphomatoid granulomatosis and Epstein-Barr virus (*tip*), January, p. 271

## **m**

magnesium-aminoglycoside interaction (*tip*), March, p. 282

Mallory-Weiss syndrome (*tip*), June, p. 183

malnutrition

— is common in patients with stable COPD (*med*), March, p. 268

— new marker of (*tip*), February, p. 323

mammograms, false-negative (*tip*), May, p. 206

marijuana (*tip*), January, p. 284

MB-CPK elevation, noncardiac causes of, are reported (*med*), January, p. 248

measles outbreak (*tip*), May, p. 203

meconium ileus, \*January, p. 163

melanoma

— malignant, in blacks (*tip*), February, p. 301

— thin, biologic behavior of: a warning (*tip*), May, p. 208

meningitis, aseptic, may be on the rise in homosexuals (*med*), May, p. 192

meningococcal infection, prevention of (*tip*), March, p. 275

mentally retarded, depression in (*tip*), April, p. 245

metallic pulmonary densities (*tip*), February, p. 343

metatarsophalangeal prosthesis, results are favorable with (*med*), April, p. 231

methicillin-resistant *Staphylococcus aureus* (*tip*), January, p. 257

metoclopramide (*tip*), April, p. 252

metoprolol metabolism, genetic variability in (*tip*), March, p. 293

migraine

— hemiplegic (*tip*), February, p. 323

— platelets in (*tip*), January, p. 271

— prophylaxis of, with flunarizine (*tip*), April, p. 243

— treatment of (*tip*), March, p. 273

minoxidil, topical, for alopecia areata (*tip*), April, p. 243

mitral valve prolapse

— (*info pl*), May, p. 43

— and endocarditis risk (*tip*), January, p. 276

mothballs, naphthalene toxicity from, case of, is described (*med*), June, p. 169

multiple sclerosis, sexual problems in, study reveals scope of (*med*), January, p. 248

Munchausen's syndrome

— \*February, p. 193

— a family problem? (*ed*), February, p. 124

musical performance, effect of pin-dolol on (*tip*), June, p. 176

*Mycoplasma pneumoniae* infections; \*April, p. 203

mycoplasma, ureaplasma and spontaneous abortion (*tip*), April, p. 256

mycotic infections, ketoconazole in (*tip*), April, p. 246

myeloma, multiple, skeletal involvement with (*tip*), March, p. 281

myocardial infarction

— cardiac catheterization after (*tip*), March, p. 318

— intravenous streptokinase in (*tip*), March, p. 282

— recent, coronary artery bypass after (*tip*), March, p. 287

— in young adults (*tip*), February, p. 346

myocarditis, chronic, responds to immunosuppression (*med*), January, p. 247

## **n**

naphthalene toxicity from mothballs, case of, is described (*med*), June, p. 169

nasal cancer (*tip*), June, p. 176

nasotracheal intubation, unexplained fever with (*tip*), January, p. 293

nausea and emesis, chemotherapy-induced, management of, \*January, p. 226

NCI testing, interferon shows modest results in (*news*), May, p. 233

neck, stiff, child with (*tip*), January, p. 253

neoplasia in children, hepatic resections for (*tip*), February, p. 319

nephrotic syndrome with chronic myelogenous leukemia (*tip*), April, p. 247

neural tube defects, prenatal diagnosis of, \*February, p. 241

neurologically handicapped children, treatment of (*tip*), February, p. 310

neuromuscular disorders, iatrogenic (*tip*), June, p. 171

neuropathy, femoral, may result from truss usage (*med*), January, p. 248

nicotine gum for smoking cessation (*tip*), January, p. 264

nifedipine for Raynaud's phenomenon (*tip*), March, p. 318

nitroglycerin(s)

— during aortic cross-clamping (*tip*), February, p. 331

— long-acting (*tip*), February, p. 304

nitroglycerin ointment as an aid to venipuncture (*tip*), May, p. 217

nutrition, home parenteral (*tip*), May, p. 214

nutritional assessment of the hospitalized patient, \*January, p. 169

**O**

## obesity

- alters aminoglycoside kinetics (*med*), April, p. 231
- LDL production in, may increase coronary disease risk (*med*), January, p. 247
- obstetric anesthesia, \*June, p. 146
- obstetric history, medical significance of, \*May, p. 164
- oral and gastrointestinal lymphomas, asbestos exposure in (*tip*), March, p. 298
- oral complications in cancer patients, \*February, p. 161
- oral rehydration for diarrhea (*tip*), February, p. 332
- oral signs of frequent vomiting in anorexia, \*April, p. 199
